

# *Penstemon rydbergii*

Scrophulariaceae

<b>Exposure</b>	Full sun
<b>Water</b>	Regular water
<b>Form</b>	Perennial
<b>Height</b>	2 feet
<b>Flower color</b>	Blue to purple
<b>Bloom time</b>	Summer

The numerous flowers of this penstemon are clustered at the top of the stalk. This mountain-dwelling species of wet meadows still needs good drainage like other penstemons.

**Habitat** Moist mountain meadows, stream banks
