

Ribes sanguineum var. *glutinosum* 'Spring Showers'

Red Flowering Currant

Grossulariaceae

Exposure Sun or part shade

Water Occasional water

Form Deciduous shrub

Height 6 feet

Flower color Pink

Bloom time Spring

In early spring this currant bears abundant clusters of pink flowers that are visited by hummingbirds. In summer the flowers are followed by dark blue berries with a white blush. This selection has light pink flowers in clusters to 8 inches long. Needs good drainage.

Habitat Woodland, forest
